The inter- has considerably diminished it. ests of the farmer are in many respects opposed to those of the operatives. The the manufacturers, demand a protective tariff; the former naturally favor free trade. The tendency of the operatives is to make war upon capital, but nearly all the farmers may be considered as capitalists. The farmer desires high prices for his produce and cheap manufactures; the operative wants cheap produce and high prices for manufactures. The farmers, moreover, entertain a deep-rooted distrust of factory hands and dwellers in cities. In a word, any general or solid combination of these two classes of workers, for political objects that are common for sale on the premises, on

rily a small affair, and cannot become a

powerful national organization. A labor party will be unable to rise to Tucker now recales, containing about party of one idea and its purposes necessarily concern a special class. Being as a specialty or to religion as a specialty a fine orchard of Apples, as also peaches, would meet with no success. The one-grapes, currants, and other small fruits. The ideaed Know-Nothing party did not succeed, although it could claim a broader basis than any possible labor party would not persuade all Americans to combine against foreigners, so would a labor party be unable to induce all laborers to combine for any purpose common to them all. A general combination against capital is obviously impossible in a country which contains so many small capitalists and in which every man may become a capitalist by the exercise of reasonable skill, industry and prudence. It may be expected that labor movements will be confined to centres of population where the aggregation of capital and the division of immediate local popularity opportunities to thrust themselves into, local offices, to thrust themselves into, local offices.
